

Vailog signs another lease in CSG Logistics Park and starts construction of 64,000 m²

Vailog signs another lease in CSG Logistics Park, with 3PL company **Bertola Central Docks** (32,000 m²) in addition to the lease already signed with **Geodis** earlier this year, and starts the construction of 64,000 m². The new distribution center, entirely pre-leased, will be completed in September 2011. Bertola Central Docks' customers include KESA, Sharp and Samsung.

The new warehouse will be equipped with a 3.1 MW solar panel installation, producing over 3,300,000 kWh per year. It will be developed with the most advanced environmental features (isolation, rain-water recycling, etc.) and will be carbon-neutral. This will allow Vailog to seek a "Very Good" certification by **BREEAM** standards.

CSG Logistics Park is Northern Italy's most successful logistics park. By the end of 2011 it will reach over 350,000 m² of distribution space, entirely occupied. Ideally located on the A21 motorway, it combines direct motorway access, rail connection, integrated maintenance services and high security standards. Current occupiers include Geodis, Giochi Preziosi, Rajapack, Norbert Dentressangle, Moncler, Bosch, DSV, etc.
